whom he sells goods, so he buys from him in such quantities and at such prices as he is offering his goods at? Further, we have none, nor are there what we term jobbing or wholesale houses, in any city, where the merchants are not willing to divide and cut up some single grades of goods, to suit purchasers, and whether they do this is their wholesale rooms or retail department, I am at a loss to see the difference it has in its effects. This is more particularly the case here, as we have scarcely any merchants from the country MISSISSIPPI AND TENNESSEE RAILROAD. particularly the case here, as we have scarcely any merchants from the country who are able, or if able, are willing to buy full bolts of finer dress goods, which I know all wholesale houses here give to them, together with small quantities of any other lines of finer goods where parties could not use the original package. This is done in any city in the Union, where small traders are supplied. As to the difference between the wholesale and retail prices of this city any merchant or any one interested will, upon proper investigation, find that no larger margin is given elsewhere than here.

M.

Indicate the case here, as we have mississippl and tennesses and the content of the city in the Union, where small traders are supplied. As to the difference between the wholesale and retail prices of this city any merchant or any one interested will, upon proper investigation, find that no larger margin is given elsewhere than here.

Navigation Company

SOUTH AND WEST. TO THE OWNERS OF REAL ESTATE IN BAMA AND ARKANSAS

THE COMPANY KNOWN TO THE PUBLIC as the "Mississippi Valley Navigation Company of the South and West," is organized under a charter from the State of Louisiana. This charter authorizes a capital stock of five hundred thousand dollars, with For Circulars, address Patentees and Manuacturers. WM. D. ANDREWS & BRO., mhi daw ili Water street, New York. ine company, the third artists of the con-is given entire as follows:

"The object of this Company is to con-struct or otherwise to procure and maintain one or more steamboats or other yessels, to can on and navigate the Mississippi river, or its tributaries, for the purpose of enrying freight, mails and passengers; to donatruct locks wharves, buildings and such other con-structions as may be necessary to the build-structions as may be necessary to the build-

docks wharves, buildings and such other constructions as may be necessary to the building and repairing of vessels, and generally to exercise such incidental powers and privileges as are hereby or may be conferred on them for the purposes aforesaid.

The Company propose, under the provisions of this charter to construct a line of steamers to run between the different poins on the Mississippi river and its tributaries. They will be constructed upon the low-pressure principle; they will carry less atom: they will make better time, and be in all respects more safe than any description of boats ever placed upon our waters. Divided into distinct compartments, if disaster, whether by

Nearly three hundred thousand doubles in money and work has already been subscribed to the capital stock of the Company. The Louisiana Legist are has passed a full sub-scribing one hundred thousand dollars of stock to the Company. An additional sum of that amount will, without a doubt, be sub-scribed by the same body. The Company have resolved to take lands for stock, and this is the feature to which they desire to call

rplus lands in the South and West that has theen or can be offered.
Many of the best and weathliest citizens of a South and West are warmly embarked in a enterprise. The General Headquarters of a Company are in New Orleans, but agenes exist in all the principal cities. The enterprise has been endorsed by Underwriters nambers of Commerce. Engineers, Mechans, practical navigators, and all classes of

scribed by the same local, and have resolved to take lands for stock, and this is the feature to which they desire to call the attention of owners of real estate. In the Southern States, on account of the disorganized condition of labor, lands are an incumbrance. Vast tracts that yield no revenue to the proprietors, pay exercitant taxes, and thus cripple facil only productive resources. This Company propose to take these lands at a fair valuation and issue to the owners their stock in Hea. If lands shall enhance in value, so will the stock enhance in value, and thus the land proprietor carry in his pocket the leand proprietor carry in his pocket the in the Kit Williams Block, Nos. 3 and 4, up stock in lieu. If lands shall enhance in value, so will the stock enhance in value, sudd thus the land proprietor carry in his pocket the equivalent of his lands, to be converted into money or property without delay. The success of this great enterprise is beyond question. The stockholder, in addition to the benefit of the enhanced value of his lands, will be part owner of a line of boats, and be entitled to dividends in their earnings.

Persons wishing to exchange lands for the stock of the Company will send to the Agent at Memphis a description of them, their productive qualities, the timber, hottom or upland; whether overflowed or not; if overflowed, what proportion; how hear to county-town, to milrosd, depot, river; and all facts necessary to afford the Company a satisfactory idea of the land. This may be lone by certificates of reliable, disinterested persons residing in the neighborhood. The present notical value of the land may be proved in the same manner. The party sfering lands must state in his propatition the lowest figures he will take. The tities must be then unmered by judgments, mortgages, deeds of trust, tax titles, or therwise. This may be shown by official artificates of judges, clerks, sheriffs, or the pinions of respectable attorneys. This is beleved to be the best opportunity to dispose of urplus lands in the South and West that has et been or can be offered. SOLICITORS IN CHANCERY
